CURRICULUM GUIDE

Child Development and Early Education
Associate in Applied Arts Degree

Curriculum Code: 1637 (Effective Fall 2016 – Summer 2021)

This degree program prepares individuals to work in early childhood education and care programs as a lead teacher, teacher assistant, or program director. This program has been awarded Early Childhood Associate Degree Accreditation from the National Association for the Education of Young Children (NAEYC), 1313 L St. NW, Suite 500, Washington, D.C. 20005. The curriculum is aligned with the standards issued by the National Association for the Education of Young Children, the Council for Professional Recognition (CDA), and the Michigan Early Childhood Core Knowledge and Core Competencies. Students learn to plan and implement high quality, developmentally appropriate programs for all ages of children, infants through school-age, in both centers and family child care homes. Graduates of the associate degree program meet the educational requirements for child care center program directors as specified by the State of Michigan Child Day Care Center Licensing Regulations. This degree articulates with certain Child Development/Early Education bachelor degrees. Several semesters of daytime field work in early education and child care settings is required.

Students completing this curriculum will also satisfy the Michigan Transfer Agreement between two-year and four-year institutions in Michigan. General education and subject area requirements vary from one college or university to another. Students should contact the school to which they will transfer for specific institution requirements.
