

Music G.A.

Career Community: Music

Curriculum Code: 1828

Effective: Fall 2022 – Summer 2027

Purpose of Major:

This degree is designed for students wishing to work in any Music-related field. The degree includes a common set of courses applicable to all Music majors and to many transfer institutions. Students beginning their college study in this degree program are encouraged to work with academic and program advisors throughout their first few semesters of study to determine their specific major area and transfer destination (if transfer is a goal). Students may select the Music A.M., Music Education/Pre-Music Therapy A.M., Music Industry A.M., or an Associate of Music degree that leads directly to employment in the Music Industry field and also may transfer to Ferris State University in the Bachelor of Science degree with major in Music and Entertainment Business. Not all courses in this pathway transfer to all colleges. Students who also wish to transfer to a four-year institution should select coursework indicated for that institution and may complete the coursework for an Enhanced Associate degree. The Enhanced Associate option allows students to transfer additional credits (depending on institution) toward the Bachelor's degree. This allows completion of credits required for employment and of additional requirements for the Bachelor's degree.

Milestone

In addition to the required General Education courses in Math and English, completion of MUSC 157 and MUSC 168 with a 2.0 or higher is a key component for success in completing this program. Knowledge obtained in these courses is the foundation for learning in other required courses. Students are encouraged to contact their faculty if they need additional assistance with learning the concepts presented in these courses.
