

## Field Survey Methods and Analysis CA

Career Community: Social Sciences

Curriculum Code: 1837

Effective: Fall 2023 – Summer 2028

### Description

The Field Methods and Analysis certificate is an interdisciplinary course of study in the Anthropology, Geography, and Geospatial Technologies programs that provides individuals with the skills and knowledge necessary to work professionally in field surveys, site evaluations, and data recoveries. Students will learn commonly used field methods, as well as current advances in field technology. Courses may be applied to the AA degree in Anthropology, the AS degree in Geography, the Geospatial Science Technician AAS, or the Social Science GA.

### Milestone

Completion of ANTH 276 with a 2.0 or higher is a key component for success in completing this program. Knowledge obtained in this course is the foundation for learning in other required courses. Students are encouraged to contact their faculty if they need additional assistance with learning the concepts presented in the course.

### Contact Information

For further information, including about career options, course substitutions and waivers, etc., contact the Social Science and Humanities Department, A&S 2203, telephone number 517-483-1061, or Student Services, (location), telephone number 517-.

### Program of Study Required Courses

Course Code	Course Title	Credit / Billing Hours
ANTH 276	Introduction to Archeology	3 / 3
ANTH 300*	Applied Field Survey Methods	8 / 8
GEOG 221	Physical Geography	4 / 4
GSCI 100	Intro to Geospatial Tech	3 / 3

**Program of Study Required Courses, Limited Choice** – *Select 3-4 courses, a minimum of 12 credits, to reach the 30 credits required for the certificate.*

Course Code	Course Title	Credit / Billing Hours
