

Applied Field Survey Methods CC

Career Community: Social Sciences

Curriculum Code: 1836

Effective: Fall 2024 – Summer 2029

Description

The Applied Field Survey Methods Certificate of Completion is a focused course of study in the Anthropology program that is designed to introduce students to the methods used to collect and analyze data in hands-on field and lab settings. Students will be introduced to survey methods and principles used in archaeology, geography, geology, and geospatial science. Topics and skills emphasized are site mapping, controlled excavation, on-site documentation, artifact curation, and geospatial data analysis. This certificate includes a field internship at an active archaeological survey location.

The coursework may also be applied to the Anthropology Associate of Arts degree.

Milestone

Completion of ANTH 276 with a 2.0 or higher is a key component for success in completing this program. Knowledge obtained in this course is the foundation for learning in other required courses. Students are encouraged to contact their faculty if they need additional assistance with learning the concepts presented in the course.

Additional Information

A student must earn a minimum grade of 2.0 in all courses.
