Limited Public Comment Regarding Agenda Items

Cindy Storie: Good evening Madam Chair, Board and Dr. Knight. I am here tonight speaking on behalf of the LCC Labor Coalition consisting of all 7 collective bargaining units at Lansing Community College. My comments tonight are in regards to the FY 2011 budget update. The FY 2011 budget shows a projected budget gap ranging from $5.6 million to $9.2 million. Again, LCC is faced with having to make substantial cuts to its programs in light of budget shortfalls. Contained in the same document is LCC’s tuition rate history which shows that LCC has not changed its tuition rate since the 2007-08 academic year. LCC has gone three academic years without adjusting its tuition to keep pace with rising costs. This has a negative impact on programs and offerings and forces cuts in order to maintain a tuition rate that does not reflect the
true cost of instruction accurately. Additionally, we appreciate Provost Shanblatt reviewing course fees and bringing to the Board alternative solutions that adjust annually to cover the actual course cost. We support the administration and their proposal to increase tuition and the fee structure for courses to insure that LCC continues to offer quality educational programs for your students. Thank you.

Mike Giles: Hello my name is Mike Giles. I’m the Co-Chair for the Student Advisory Committee with the President. Two weeks ago we met with Dr. Knight and discussed student fees. There were a couple of alternatives that Dr. Knight offered and we discussed them. There was an alternative of having no fees and putting that into general tuition. Students were generally opposed to that as well as being opposed to spreading fees across the board. For example, students would have to help pay for the fee of a science major. The reason that several students vocalized this was because students did not feel it was fair to have to pay their fees for someone else’s fee in their tuition. The recommendation of the students by the committee is that the Board of Trustees and the President adopt a compromise between being fiscally sound and regarding what is fair to the students of Lansing Community College. We really appreciate the fact that Lansing Community College has kept its tuition low while other colleges and universities tuition and fees have sky rocketed each year. We appreciate very much the opportunity given to us to be here. Thank you

Trustee Larry Meyer: John Dodge passed away on or about the 5th of March. His celebration of life and eulogizing was done Sunday at Hawk Hollow. There were two things at the service that moved me considerably. One was a young man that stood up with tears in his eyes and said what John meant to him as an instructor at LCC. The day that John died on his way to the college, the young man was in his class waiting for John to arrive. Second was another student who got up and said just what the instructor meant to them and how John was enthusiastic about hospitality and brought a lot of good things to the class. I was so impressed that these young people brought this forward; one because of their self confidence in doing it and second because of how they felt about this instructor. I knew John well in the community and in business, but didn’t know him well as an instructor. I would ask Dr. Berry to give a few comments on what he did and think it would be appropriate if we stood in silent tribute for just a moment to memorialize his loss.

Judi Berry: John Dodge was a very dear friend and colleague to the Hospitality and Tourism Department and the entire BMIT Division. What I find so fascinating was how busy he was with his business in the community but found time to teach for 30 plus years in the division. He has taught in all aspects of hospitality and was also over the internship program placing students and coaching them in hospitality. He was the owner of Sneakers in Frandor and was responsible for designing a couple of the golf courses. Thank you for allowing me to say something about John.

*There was a moment of silence.*

**Chairman, Committee and Board Member Reports**

**Chairperson’s Report – New Board Governing Policies**

Chairperson Canja stated that a suggestion had been made by some that the Board focus its attention on broad statements. Trustee Canja listed the following broad statements:

1. E-104.1 Preparing prospective and incoming students for college level work.
   E-104.2 Emphasizing foundational skill development to give learners maximum employment flexibility.
   E-104.3 Increasing Outreach to Underrepresented and Underserved Segments of Community.

2. E-105.1 Focus on, invest and implement programs and initiatives that will substantially and positively impact student retention and completion.

3. E-106.1 Increase the effectiveness of internal marketing and communication throughout the College and external marketing and communication throughout the communities LCC serves.
4. E-107.1 Promotes a spirit of excellence.

Trustee Woods stated it was his understanding that the broad categories were, (E-104) Community Impact – Highly Educated Community, (E-105) Student Success, (E-106) Marketing and Communications, and (E-107) Academic and Workforce Development Excellence. He stated that he thought these broad topics were going to be given to the administration with the recommendation to see what they can do in each of these areas. Trustee Woods stated that the statements Trustee Canja read are the guides for the administration to use. He stated that the Board should focus on the policy titles and let the End Statements be suggestions for the administration to use to bring a plan back to the Board. He further stated that the administration needs to be given the opportunity to see what they can do. Trustee Woods stated that the Board was looking at these over the course of possibly three years; identifying what would be priority one for the first year, second and third year.

IT WAS MOVED by Trustee Woods and supported by Trustee Proctor to approve the four new Governing Policies Titles (E-104) Community Impact – Highly Educated Community, (E-105) Student Success, (E-106) Marketing and Communications, and (E-107) Academic and Workforce Development Excellence.

Trustee Canja stated that they talked to the President about the new policies the Board came up with and what his suggestions were for implementing them and how practically the college could look at implementing them in year one. There was discussion on how the college might take the broad statements and translate them in to something he felt could be worked on in a year.

Dr. Knight stated that student success was paramount to him but that all of the categories were concepts to which the college should aspire.

Trustee Meyer stated that the Board should begin to move this process along and that a vote is needed on the broad principles. He stated that these principles are not cast in stone and are broad guidelines of policy direction and they should be filled in underneath going forward. He said that he would like to see something moved forward.

Trustee Hollister stated that this process began from the Board looking for some criteria by which the Board could evaluate the President. He stated that he agreed that the Board needs to have the broad policies statements but also believes they need to have something a bit more concrete than just the broad titles. He stated that the details underneath are the thoughts of the Board and they should have dialogue on the ways the college could implement these policies.

Trustee Canja clarified that Trustee Woods was talking about the policy titles only. She stated that her only concern was that she did not think they were a statement of an
End, don’t have enough substance and are not statements of the Board’s intent. She stated that they are broad categories and would like to see the Board be a little more specific.

Trustee Proctor asked Trustee Canja to make a suggestion of what the Board should consider.

Trustee Canja suggested that the subcategories listed under the broad titles be included.

Trustee Woods clarified that they would have the four new policies titles as broad categories and use the subtitles listed below each title as guidelines for the administration to use for developing them. He stated that the Board needs to make sure that every department has a role and everyone should see where they fit in this document. He restated that they would approve the board categories and adopted the guidelines to assist the President to build a plan.

Trustee Meyer stated that Trustee Woods clarification would move the process along.

Trustee Rasmusson stated that he has concerns about the implementation phase of the plan. He stated that he has concerned about the resources to meet the outcomes and that it would have to be accomplished within the present resources that the college has.

Trustee Proctor stated that he agrees with Trustee Meyer about moving the process forward and that he is not sure how they would use this to evaluate the President unless he provides them with feedback on it. He stated that he was not sure they were ready to vote on this tonight, but that the Board should adopt something on what they are expecting of the President and how they are going to rate, score and evaluate his performance before the end of the fiscal year.

Trustee Canja clarified that the motion is to approve the four new Governing Policies Titles (E-104) Community Impact – Highly Educated Community, (E-105) Student Success, (E-106) Marketing and Communications, and (E-107) Academic and Workforce Development Excellence and adopt the policy statements as guidelines for the President and ask him to come back to the Board with a plan for meeting them in a way that he finds feasible.

Roll call vote:
Ayes:  Hollister, Meyer, Proctor, Rasmusson, Woods, Canja
Nays:  None
Absent:  Smith

The motion carried.
Dr. Knight stated that at some point there was conversation about the standard criteria for evaluating a president and that these guidelines would be supplemental to those standard criteria.

Board Member Reports – Revisit the Revised Workplace Consensual Relationships Policy

Trustee Woods stated that at the last Board meeting the Board made a motion to approve the revised Workplace Consensual Relationships Policy. He stated that since then he has had an opportunity to talk to someone one-on-one. He stated that he would like to Board to reconsider that policy and prohibit a relationship between a faculty member and his or her student. Trustee Woods stated that students are at LCC for an education and that they are not here looking for a relationship with a potential instructor.

It was moved by Trustee Woods to change the revised Workplace Consensual Relationship Policy and prohibit relationships between a faculty member and his or her student.

Trustee Proctor suggested that it may be more appropriate to have this item placed on the next Board meeting agenda so that there is time to develop language with respect to the changes in the policy. He stated that he had some concerns with the scope and effectiveness of the policy that was approved.

Dr. Knight stated that a legal opinion will be needed as well.
