Action Items – Transfer of General Funds Undesignated Fund Balance for Specific Projects

IT WAS MOVED by Trustee Hollister and supported by Trustee Woods that the Transfer of General Funds Undesignated Fund Balance for Specific Projects be approved.

Dr. Knight stated the Administration is requesting to transfer funds from the undesignated fund balance in the General Fund for the following projects:

1. Student Services Technology Project - $500,000
2. Renovation of the former Catholic Conference Building at 505 Capitol Avenue for Conversion to a STEM Classroom Facility and Center for Veterans Services - $1,000,000
3. Downtown campus-wide tree and landscape improvements - $2,900,000
4. Required grant match and associated costs to implement a Mechatronics academic program at the West Campus contingent upon the award of a Community College Skilled Trades Equipment Fund grant by the State of Michigan – not to exceed $3,800,000

Trustee Canja stated that the Board has been assured that several tree experts have come out to the college and stated that the trees are dying. She stated that although she recognizes replacing the trees must be done, she is mindful of the LCC staff that spoke tonight stating that LCC values landscape more than employees. She further stated that she does not have all the information needed to make a decision. Trustee Canja stated that if the college is going to move forward with building projects, it is in the best interest of the college to complete those projects under President Brent Knight because he is the best in the state in putting together aesthetically pleasing building projects that brings values to the college.

Trustee Woods stated that all people at the college matter. He said just because there is a disagreement over something in the contract doesn’t mean that employees don’t matter. He stated he is confident the administration will work something out. He further
stated he also has concerns regarding the buildings and sculptures, but recognizes the importance of the college having learning environment that is conducive to learning. He stated he believes there is a balance and applauded the Administration and the Director of HR for the formal recognition of employees now put in place.

Trustee Smith stated the purpose of the public Board meeting is so the voices of the college and the community can be heard. She stated that the Board has heard loud and clear about the contract and the timing in which it has been handled. She stated that she does not feel there is a direct parallel between the trees and reorganization and would like to see how it plays out. She further stated that is important for the college to finish the campus renovations it has started.

Trustee Hollister stated that he has worked with Dr. Knight for several years and is confident if there were miscommunication concerning the reorganization it will be dealt with appropriately.

Trustee Proctor stated there are two separate issue before them. He said the first is a complaint with the terms of the bargaining agreement and whether or not the college followed the collective bargaining agreement in announcing certain changes of an organizational nature. He stated that the second issue deals with whether the college should spend 2.9 million on campus improvements. He stated these two issues are not connected.
